Objective

Currently pursuing **MSc in Information Technology** and practicing **Data Structures & Algorithms** in **C++**. I have hands-on experience building **MERN stack** projects and **hosting them online**. Actively **seeking internship opportunities** to deepen my understanding of software development and apply problem-solving skills in real-world applications.

Education

Gujarat University – GUCPC Department (Completed) 2022-2025

BSC IT

Gujarat University – GUCPC Department (ongoing) 2025-2027

MSC IT

Tech Stack & Skills

- **Programming Languages:** C, C++, JavaScript
- **Data Structures & Algorithms:** Solving problems using C++
- **Frontend:** React, HTML5, CSS3, JavaScript
- **Backend:** Node.js, Express.js
- **Database:** MongoDB and Mongoose
- **Tools & Others:** Git, GitHub, Postman, REST API, Linux CLI

Projects

1. Authentication system

- ◆ Built a full-stack authentication app using Node.js, Express, MongoDB
- ◆ Features: register/login, Bcrypt password encryption, JWT-based auth
- ◆ Live: <https://authapp.sohan.codes>
- ◆ Code: <https://github.com/sohan-sindhav/UserAuth01>

2. Personal Portfolio site

- ◆ Responsive portfolio with subdomain-based project structure.
- ◆ Hosted on Vercel with a custom domain sohan.codes and organized using subdomains (e.g., authapp.sohan.codes) for live project deployment.
- ◆ Live: <https://sohan.codes>
- ◆ Code: <https://github.com/sohan-sindhav/PortfolioSite>
